ABOUT ME

Agricultural Engineer who, being passionate about the world of technology, has decided to reinvent herself as a Front-End programmer to develop all my skills in this field.

This capacity for change throughout my professional experience leads me to be a multidisciplinary person, who easily adapts to new environments, and therefore, with ease for continuous learning , becoming a constant challenge that I have been overcoming.

Enthusiastic about teamwork and analysis , I can bring a lot of dedication, motivation, and curiosity when looking for new solutions.
